Logistics and Supply Chain Specialist Program

Program Objectives

This diploma program introduces students to the modern practices and concepts of logistics and supply chain management and presents the field as a vital part of a corporate success in a local and global marketplace.

- Financial assistance may be available to qualified students.
- Graduation requirements: Students must achieve a 75% average to obtain a diploma.

Delivery Method

Combination of:

- Integrated Learning™ System training facilitated by Academy of Learning College facilitators
- Online/Hybrid

Career Opportunities

On completion of the program, students will gain the professional competencies needed for entry-level careers in purchasing, logistics, and supply chain management in various industries, such as the public sector, retail, freight forwarding, and import/export.
